

# Good News

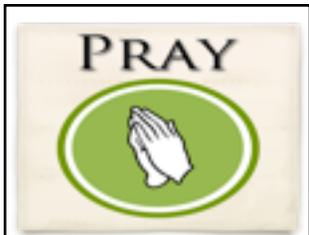

October is when the majority of our Good News Clubs start for the new school year. In the past few weeks teachers, helpers, and other volunteers have been stopping by to pick up their materials and get everything they need for their clubs. As each person stops by we are reminded just how blessed this ministry is to have so many who are willing to give time each week to reach the boys and girls in their local area.

The first day at school at Cumberland Valley Christian School

Our kids are back in school and settled into their new routine. It took us a little while to switch from our summer schedule to our fall schedule, but we're all adjusted now. The Good News Camp property is ready for another winter and our staff is ready to begin fall ministries.

Dan and I were able to attend a 3-day CEF district retreat along with workers from PA, NJ, and Connecticut. We had a wonderful time of encouragement and refreshment.

✓ Pray as clubs start this month. Pray for God's leading in every single detail involved in starting in a successful way.

✓ Praise for our kids having a great start to the new school year. Pray that they will continue to do well and enjoy their classes.

✓ Praise God for opportunities to minister together as a family. Pray that we will make the most of these opportunities and keep a balance with our time and commitments.

## Cora

Cora is a junior now and also a licensed driver! She's playing volleyball again this year and has joined the student council as the leader of the school's Christian service team. She'll be teaching two kindergarten Good News Clubs starting in October.

## Caleb

Caleb is now in 8th grade and has reached 6 feet, 3 inches tall. He actually admitted that he enjoys his classes and is such a diligent worker when he comes home each evening. He's not all grown up yet though, because he still saves every penny for Lego sets.

## Jacob

Jacob is now in sixth grade. Sixth grade is still considered elementary at their school so he gets one last year in the elementary school. He's taking a computer math class again this year that he loves. He's also continuing with piano lessons for the sixth year.

## Olivia

Olivia is in 5th grade and has the same teacher that both of her brothers had. Science and History are her favorite subjects. After the first day of school she made a Science notebook and has spent hours outside with her equipment recording data.
